Inhalte	<p>The first decades of European Integration were a success story. Member states of the European Union (EU) are highly integrated politically and economically. However, since the beginning of the 21st century the process of integration has become increasingly difficult. Especially the Brexit and the migrant crisis but also the rule of law procedure against some EU member states have revealed dissent concerning the status quo and future perspectives of the European Union. Quo vadis, European Union: Europe of Nations or United Nations of Europe?</p> <p>Key issues: EU Institutions, Single Market, Central EU-policy areas, Future of the EU</p>
